PRESENTER BIOS

Mark Armstrong is Vice-President for Oracle Higher Education Product Development, leading the team that develops and supports products that are specific to the Higher Ed market. That includes the PeopleSoft Campus Solutions and Oracle Student Systems product suites. Until its acquisition by Oracle, he held a similar position at PeopleSoft. Prior to joining PeopleSoft to build Campus Solutions, Mark developed and implemented student systems and related projects at the University of California, Los Angeles (UCLA).

June Farmer is a Senior Director in HCM Product Strategy at Oracle. She is a member of the outbound facing team that communicates the overall HCM Cloud roadmap and vision to customers, partners and prospects. Her skills range across various functional domains, including Financials, Projects, Procurement, Human Capital Management as well as several industries including Public Sector. Her previous career experiences, while based in Europe, include founding an Oracle Partner consulting business and as an account manager supporting strategic accounts at Oracle.

Jeff Henley was Oracle's chief financial officer and executive vice president from 1991 to 2004, and has been a member of Oracle's board of directors since 1995. He served as chairman from 2004 to 2014, and now serves as executive vice chairman and is a member of Oracle's Executive Management Committee.

Prior to joining Oracle in 1991, Henley served as executive vice president and CFO at Pacific Holding Company, a privately held company with diversified interests in manufacturing and real estate, and as executive vice president and CFO at Saga Corporation, a multibillion-dollar food service company. He also served as director of finance at Memorex Corporation in its large storage division, and as controller of International Operations at Fairchild Camera and Instrument Corporation.

Kurt Herman is a Distinguished Solution Consultant in Oracle's Cloud and Enterprise Technologies Division. Kurt works with Oracle's applications customers in multiple industries across the United States to tightly link information technology solutions with key business drivers and initiatives. Kurt has been with Oracle since 1997, and in the information technology industry since 1982.

Terrance Wampler is the vice president of financials product strategy. He is responsible for leading all aspects of product strategy and customer success for Oracle's financial applications and related cloud services.
